

Dear Colleagues,

I wanted to provide an update on the Post-Employment Benefit Listening Forums which will be held in October and November. Each campus has a planning committee which has been planning the local forums. A representative from the Chancellor's office serves as the coordinator and members of the committee include an Emeritus Representative (In most cases the President of the campus Emeriti Association) a Retiree Representative, a member of the campus Faculty Welfare Committee, and a representative from the campus Staff Assembly. The Listening Forums will consist of a presentation by representatives from the Office of the President (Usually Randy Scott and Gary Schlimgen) for approximately 40 minutes to include an overview of the post-employment liability; findings of the total remuneration study; and a description of the Post-Employment Benefits (PEB) Task force structure, charge, and work to date. The presentation will be followed by a question and answer period of about 50 minutes. It is important that emeriti and retirees take advantage of this opportunity to learn about the issues and approaches being used to address them.

The following is a list of the dates for the Listening Forums, the name of the person from the Chancellor's Office who is coordinating the Forum and the Emeriti and Retiree representatives on the planning committee:

UC Berkeley: November 10: Beata Fitzpatrick (Chancellor's Office Coordinator)

Larry Waldron (Emeriti Representative)
