

Web Manager's Report
CUCEA Meeting, October 31 2019
UC Davis

The website of the Council of University of California Emeriti Associations (CUCEA) serves as a communication resource for CUCEA members and other interested UC emeriti and retirees. It is an open source website and is therefore readily accessible and simple to navigate at <http://cucea.ucsd.edu>.

The site provides basic information on CUCEA's mission, lists of past and present members, meeting dates and locations, agendas and meeting minutes.

Much of interest is archived in the meeting minutes dating back to 2008. There are also articles and reports relevant to CUCEA's interests, especially the biannual Campus Emeriti Association reports and the Joint Benefits Committee (JBC) reports. (The JBC is an important committee of UC Emeriti and Retirees members that serves as consultant and adviser to the UC administration regarding health and retirement benefits).

In addition, there are biannual CUCEA Newsletters produced from 2011 until 2018. Currently, there are no plans to continue them on a biannual basis but more on a schedule determined by members' interests.

The web manager is responsible for posting and updating content on the site. The manager is also the site editor and provides some of the site's content. Input in the form of articles, reports, advice, and suggestions contributed by CUCEA members and other emeriti and retirees are welcomed, encouraged, and needed!
